SUMMARY

I am a MERN stack developer. Skilled in building dynamic and responsive web applications using React.js, Tailwind CSS, Context API, and Zustand for the frontend, along with Node.js, Express.js, and MongoDB for the backend. Experienced in real-time communication with Socket.io. Proficient with tools like Git, GitHub, Postman, MongoDB Atlas, Compass. Always eager to learn, adapt, and contribute to impactful projects.

SKILLS

Front-End:- HTML, CSS, JavaScript, React JS, Tailwind CSS, Context API, Zustand, Redux Toolkit.

Back-End:- Node.js, Express.js, MongoDB, Socket.io.

Databases & Storage:- MongoDB Atlas, MongoDB Compass, Cloudinary. **Tools & Platforms:-** Git, Github, Postman, Netlify, Render, Figma, Canva.

PERSONAL PROJECTS

QuickChat

QuickChat is a messaging web app built with MERN stack. The frontend is developed using React.js, Tailwind CSS, and Zustand, while the backend is powered by Node.js, Express.js, MongoDB, and Socket.io for real-time communication. This app allows users to send messages and images both individually and in groups. It features real-time messaging with Socket.io, authentication and authorization for secure access, and Cloudinary for cloud-based image storage. The application is fully responsive, ensuring a seamless user experience across all devices.

You Tube Clone

This is a fully responsive YouTube clone application using React.js and Tailwind CSS to deliver a modern and dynamic user experience. Implemented Context API for state management, React Router DOM for seamless navigation, and integrated React Icons for a polished UI. Enhanced user interaction with React Toastify for effective notifications and leveraged RapidAPI to fetch and display YouTube data.

Portfolio

A fully responsive portfolio built with React.js and Tailwind CSS. Showcases my latest projects and includes a section highlighting my skills. Optimized for all devices with a clean and modern design.

Expense-Tracker

This is a responsive Expense Tracker application using React.js and Tailwind CSS. Leveraged Context API for state management and React Router DOM for navigation. Designed for real-time expense tracking and effective budget management, with a focus on clean UI and ease of use.

EDUCATION

Bachelor of Computer Application

(2022-2025)

Maharaja Agrasen University Solan-HP

CGPA: 8.18/10

Senior School (12th)

(March-2022)

Govt. Sr. Sec. School Parwanoo, Solan-HP

Percentage: 73%

High School (10th)

(March-2020)

Govt. Sr. Sec. School Summer-hill, Shimla.

Percentage: 80%
